LUXOR
KEROSENE OIL.

This celebrated brand of Kerosene, manufactured by the Chesebrough Manufacturing Company (the manufacturers of Vaseline) is without doubt the best in this Market. It is perfectly pure, gives a brilliant light, and is absolutely free from that disagreeable odour most kerosene has.
The U. S. Government requires that no Oil be sold under a fire-test of 115°; this is 150°, it is therefore perfectly safe.
As such it is recommended, and families wishing to burn a really good Oil, cannot do better than send for a sample to

Miss Lilian Lovelight's Letter.

Dear Susy, your nice little note came to hand,
A breath of fresh air in a sun-stricken land;
How gay and delightful existence must be,
In your sweet rustic cottage that looks on the sea.

Among other questions you ask me, my dear,
(For everything Naw comes to air itself here)
Is all that I know, or have heard, or have seen,
Of the wonderful jelly they call VASELINE.

So I've studied it up, as the college boys say,
And send the result without further delay;
That queer and mysterious oil that is found,
A mile or two down in the rocks under ground.

But purified, scented, and fit for a queen.
Is the germ of that blessing to man, VASELINE;
I'm in Love with it, Susy, as doubtless you see;
As You (when I tell you its virtues) will be.

I fear, dearest Susy, you'll think it not true,
If I tell you the wonderful things it can do;
Like a veil of soft satin it renders the hair,
And the skin like a lily makes brilliant and fair.

It conquers neuralgia, coughing and croup,
Sore throat and dyptheria kills at a swoop:
While for cuts and eruptions there never was seen,
Or for burns, such a treasure as pure VASELINE.

And now, Susy dear, it is time to go dress,
[I will send you some Vaseline up by express]
Then the hearts of the beaux you will certainly win,
You'll be Lovely without as you're Healthy within.

HAVAS' AGENCY

Paris, 18th

In reference to the protest of the Turkish Government against the resolution of France and England to support the Khedive's authority, the Powers have expressed their full approbation of the course of the said two powers.

SCIENTIFIC PROGRESS.

Whatever doubts may be harbored as to the material progress of the Argentine Republic, none can for a moment contradict its scientific development. People may shut their eyes to the great increase of sheep and cattle, doubt the existence of flax and wheat-fields, and nurse the conviction that the country is on the high-road to ruin and bankruptcy, with too many steamers, railways and loans, but a cursory glance at Dr Gould's Argentine Meteorology must leave an overwhelming impression that, scientifically speaking, the country is making gigantic strides towards the pinnacle of civilization.

General Sarmiento was right when he wrote to the eminent Argentine astronomer, Dr Gould, that his heavenly observations and Uranometria Argentina drove up Argentine stocks on the London Stock Exchange and raised the credit of the republic abroad. The same may be said of the new work on Argentine meteorology: a really monumental work of patience and exact observations. We have been favoured with the third volume, an immense book, treating on the climates of Corrientes and Bahia Blanca. Nobody would ever suppose that such a work could be produced in South America, and the effect it will cause in scientific circles in the European capitals can already be anticipated.

The observations and diagrams on the climate of Bahia Blanca were made by an ex-officer in the Argentine army, Mr F. Caronti, and they will remain an everlasting credit to him. Those of the province of Corrientes were drawn up by an intelligent countryman, Mr Edward Fitzsimons, brother of the well-known Rector of the National College of Corrientes. The observations are most minute and refer to the atmospheric pressure, vapor in the air, nebulosity, course and intensity of winds and rains, clouds, clear and foggy days, etc; in fact Paris or London could not produce a more exact and detailed work of meteorological observations. Both the above gentlemen deserve the thanks of the Argentine Government, since the work is calculated to produce a most beneficial effect in Europe.

People in Europe are too apt to limit the sphere of action of Argentines and their Government and people here in general to hides, tallow and wool; Vicuña Mackenna dwells much on the purely mercantils and shop character of the Argentine nation. This work of Dr Gould's is the very best literature to refute the assertion. No other S. American nation, and few European States, can rival our astronomical development, and Dr Gould has built up the reputation of Argentines on a more solid basis than all the political men in the country. Whilst the Chilian War Office is annexing Peru, Bolivia and the tail-end of Patagonia, Dr Gould and the Argentine Observatory have conquered the Southern firmament for the people of this country. Flammarion stated that he would not exchange the piece of land he discovered and claims in the moon for any European Kingdom, and he was right and clings to his opinion yet However abstruse and beyond ordinary intelligence astronomy may be, all look up to the Science as the crowning effort of human brains and ambition.

Like every work that Dr Gould publishes, the present one is got up in a masterly manner. The print, the engravings, diagrams and numerous formulæ are perfect and are a credit to the printer. We may here state that love of Science has been the motor that gave trith to this tiring work, and one and all who studied and observed may claim their share of the merit. The Argentine Government must now send copies to all the academies and observatories of Europe and North America, where productions of the kind are duly appreciated and will draw forth deserved encomium and encouragement. Great men make great works, and Dr Gould and the Cordoba Observatory are familiar to all the great astronomers of the day. Argentines will one day bless Sarmiento for having created the Observatory and engaged the services of Dr Gould.

THE RIO COLORADO.

Mr Freund, the government surveyor has shown us the maps of the rivers Colorado and of the Quequen Grande which he will exhibit at the forthcoming Exhibition. The Colorado is drawn on a large scale and covers a space of 10 square metres, although it only comprises the upper part of the river, dominated by the sierras Chogque Mahuida. All the bends of the river, with the fertile camps and the stretch of the mountainous ridge which runs along the river side and divides the good camps from the sandy and stony regions, have been shown with different colours and all necessary indications, to enable buyers and owners to judge for themselves of the quality of those regions. Such is the exactness of the plan, that even the willows on the small islands in the river have been shown, each in its own site. For intending buyers this map will be very valuable. Since a military force has been stationed lately on the banks of the river Colorado, the commanding officers of the frontier line will benefit vastly by the map of this unknown territory, being enabled by it to point out the exact points where they want to station their men, and where to let operations go on, far better than by merely describing the desired spot. As for us, we have been astonished to see what a small proportion of good fertile lands is to be found in such a vast region, but it is easily to be understood, seeing that not a single lake, either of fresh or of salt water, has been met with,

The 4 maps of the Quequen Grande have been drawn up by Mr Freund, in order to take out the concession for a water mill on its banks near the new town of Necochea. This is the third concession for building watermills in this province which Mr Freund receives from Government. His first concession was for building a watermill at Olavarria. It dates from last year, month of March, but before works were commenced, some other party stepped in and, appropriating the site of Mr Freund's concession, built the mill, without permission from Government or the slightest right to do so. Of course, this irregular proceeding was referred to Government, and the case being submitted to the fiscal assessor, he ordered the works to be stopped and the mill to be pulled down. This judgment of their legal adviser has lately been communicated by Government to the Municipality of Olavarria, and so it will soon be seen what will be the end of this most unfortunate affair.

LONDON LETTER

(*From our Own Correspondent*)

PROPERTY DEFENCE ASSOCIATION.

December 16th.

Tennyson's immortal Northern Farmer heard 'pruppety, pruppety, pruppety,' in the daily canter of his nag. We hear it now in a gallop. 'Pruppety' is affrighted. It is only just and appropriate that the Property Defence Association should be inaugurated at the Mansion House by the Lord Mayor of London. Lombard-street represents property as well as do broad acres. Dukes, marquesses, bankers, merchants, newspaper managers, Liberals and Conservatives, have met together yesterday at the invitation of the Lord Mayor for some purpose, in itself unquestionably vague and as yet undefined, although the motive is plain enough—rents are property—'no rents,' as a systematic cry, is plunder. Irish estates are mortgaged to city guilds and companies. No rents means no interest on mortgages as well as no means of realisation in case of foreclosure. They mean even more. They mean less turtle soup, less chances of jobbery and other curtailments in the ends and pleasure of city life. But at the first meeting the whole strength of beadledom fraternising with the territorial aristocracy was unequal to a plain statement as to what was to be done and what was intended. All that we heard was funds! funds! and the Duke of Westminster offers £500, with the promise of other sums when required. Lord Aberdorn, more wary, sends a letter of advice as to the disposal of the fund, but omits by inadvertence the enclosure. The Governor of the Bank of England, Mr. Grenfell, proposes a resolution to communicate with the Lords Lieutenant of the various English counties, to seek

assistance towards raising the fund. He reminds his Liberal as well as his Conservative and Protectionist friends that we 'all breathe by the principle of freedom of contract between man and man and the free interchange of commodities.'

Of course, with regard to the Irish question all that is pure cant and city jargon. There is no freedom of contract in Ireland between landlord and tenant, or in England for that matter. The plunder has been on the side of the landlords, and, above all, in the case of certain city companies who have abused their trust in Ireland.

It is plain these people gathered together at the Mansion House did not quite know what they came for, and after passing a vague resolution, the rest was left to the discretion of the future committee. It is mockery on the part of these country and city Pharisees to talk of 'no rent' as only plunder, when they know it represents political revenge and a protest against the imprisonment of Parnell, which was probably an impolitic measure. They know also it was the fiat of the House of Lords, representing them and property, that evictions for exorbitant rents should go on, whilst an act passed by both Houses of Parliament is now in operation to lower these rents. That Act was a national protest against what these people at the Mansion House forsooth call 'freedom of contract!' The meetidg at the Mansion House should have taken place whilst the Act was being discussed; it is now a revolutionary and in some respects treasonable proceeding on the part of the Lord Mayor and his friends.

Perhaps some of your readers would be interested in the thrilling report of the divorce case in which the very young Earl of Shrewsbury is co-respondent, It may be observed that the rule *nisi* was at once granted with costs, but there was no question of damages. Well, it is not fair to be too hard even on young ladies of the stamp of Mrs. Munday that was; but I hear in legal circles, simply as an 'on dit,' that for previous reasons, similar pranks in fact, on the part of the lady, damages were not asked. I hope this is an invention, because the lady may become the Countess of Shrewsbury. Certainly if she does, as he is very rich and the title is in the highest degree respectable, her antecedents, in the existing state of English society will be of very little consequence.

EDITOR'S TABLE.

The Royal Mail steamer Humber sails this afternoon for England. Mails close at G.P.O. at 1 p.m.

The heat yesterday baffles all description. Not a man in town could keep himself cool, either morally or physically, and the ice gave out early at many of the cafes and 'confiterias,' such was the demand for it. Only for a gentle breeze from the river, the temperature would have been insupportable.

Mr. Freund, C.E., has kindly left on exhibition at our office for a few days the Map of the Rio Colorado which he has prepared for the Continental Exhibition. We invite all who are interested in lands down there to call and inspect it. There is more sand than land in that quarter. We refer in another column to this highly instructive map.

The premium on gold is not dead but sleepeth, and not too soundly either. See on 'Change.

A frightful accident took place at Montevideo on Wednesday. While Mrs. Hernandez, her daughter and some young lady friends were driving to the Buceo for their daily bath, the carriage upset on turning a corner, and Miss Hernandez received a blow on the head that killed her on the spot, the other occupants of the vehicle escaping with some bruises. At the sight of her daughter's corpse poor Mrs. Hernandez lost her reason on the spot and was taken home in a pitiable condition. This terrible affair has created a most painful sensation in Montevideo. As a rule, the coachmen of private carriages as well as gentlemen handling the ribbons, are quite too fond of furious driving, and as neither class can be said to be first class whips, the wonder is that more fatal accidents do not occur. The paces of good carriage horses are not shown off best when the animals are driven at their top speed, but when they are kept well in hand.

Our rheumatic and neuralgic subscribers should drop in on us and glance over a little 'brochure' we received by the mail from the U. States, in reference to the introduction there of St Jacob's Oil, the great German remedy for rheumatism and neuralgia, which cures these painful diseases almost instantaneously. Query, is there any of this wonderful oil to be had in this country, there rheumatism is so rife?

The Municipality of Tucuman is going in for Water Works for that city, and has resolved to spend 200,000 pats on them. The cash is to be be raised at home or abroad. The National Bank will probably be asked to make another advance.

The number of workmen engaged at the Exhibition has now fallen to 152, so we suppose matters are more advanced than is generally supposed. Special 'salons' are to be constructed for the President of the Republic, the Diplomatic Corps, and other distinguished visitors, to enable them to rest and refresh themselves free from the madding crowd. This country is so brimful of distinguished people, that we earnestly recommend the Committee to draw the private 'salon' line at the Corps Diplomatique, as otherwise the whole building will not prove large enough for retiring rooms for the legions of people who are 'distinguidos'—in their own estimation.

We hear from all quarters of the camp that the new law regarding cattle brands has created the greatest consternation amongst the unfortunate peons, puesteros and gauchos, who very naturally complain bitterly of the injustice of a law which orders the confiscation of their 'boletos de marca' bought in perpetuam from the Government. These people are much to be pitied, as the great majority of them cannot afford to have their mark renewed, and are therefore forced to beg their better off neighbours to lend them their marks, a favor which very few care to do, for many obvious reasons, besides the confusion occasioned by "marcas prestadas." Of the eighty thousand brands used in this province it is estimated that seventy five thousand pertain to the labouring classes who can ill afford to be mulcted out of their wages by such a gross piece of unconstitutional taxation. Governor Rocha could not possibly have presented the hungry train surrounding each Juzgado de Paz with a more valuable New Year's gift than the promulgation of this law — the endless "pleititos" that will arise from it will provide a worthless crowd with money to gamble with. This famous law will pass to posterity under the name of the Horseleech Law.

Our fashionable reporter informs us that Miss Perkins, the fair and accomplished daughter of our esteemed friend and Rosario correspondent W. P., is about to change her name soon. We send her our most cordial congratulations.

The crabs had a frightful time of it at Bahia Blanca on Wednesday, when the temperature was the highest known in the memory of man—106 Fahrenheit in the shade. The 'cangrejos' lay on the shore in millions, stewed to a turn ready for lunch, but no one would venture out to them in the terrific heat. The lobsters fared better, as they lay close till the sun went down.

It appears there were two fires at the Boca on Wednesday, the second being a small affair in a linseed oil factory in Calle Sarmiento, and the police put it out in a few minutes. When the fire broke out the neighbours ran away ("braves gens!") in all directions, fearing the premises would explode, owing to the inflammable nature of the stock in trade. One delicate lady, who lived opposite, got such a fright that she died in the evening. The police behaved very pluckily and well in the matter.

The Society for the Prevention of Cruelty to Animals is almost as unlucky as the Industrial Club was when it began the Exhibition. Owing to the illness of the Minister of the Interior, H.E. has not yet been able to receive a deputation from the Society, as agreed on, to arrange about giving it a legal standing. Every man in town with a heart in his breast is anxious to see the Society at work, and the tram 'cocheros' are now specially recommended to its officers for their first essay. In this hot weather the whipping, prodding, kicking and other ill treatment of the poor tram horses is something dreadful. The fact is, that most of the companies do not give their horses any maize, for economy's sake, but feed them solely on hay, and this leaves them in such a wretchedly soft condition that they are not equal to the long journeys and overloaded cars forced on them.

The heat, the heat, and nothing but the heat. Mr Feustel of Quilmes solved the other day the problem of Squaring the Circle, and now Mr Julio Arraga has sent a polite note to the Minister of the Interior to say that he has surmounted, by the very simple means of air and water, all the difficulties that have hitherto lain in the way of Perpetual Motion! The inventor modestly adds that this is the greatest discovery made since the days of Adam and Eve. With two such stupendous discoveries hurled at him within a week, it is no wonder that the Minister of the Interior's recovery from his severe illness is not so rapid as his numerous friends and the general public could wish.

Our esteemed young friend Mr Cuthbert Shoolbred, Private Secretary to the Minister of Foreign Affairs, and for many years Confidential Interpreter of the National Government, has been entrusted by the latter with a highly important task —the translation into Spanish of the Patent Laws of the United States, for the use of the Engineers Department. The task is a most important one, but could not be in better hands, as Mr S. is one of our most accomplished linguists.

A mole is about to be built at the Tigre by Government, to facilitate the torpedo service.

Dr Gould, the distinguished Director of the Cordoba Observatory, has just published the second volume of his 'Meteorologia Argentina'. It is specially interesting for those who hold Bahia Blanca lands, as it contains a most exhaustive report on the climate of that rapidly rising region, by Mr. F. Caronti. There is also an equally good report on the climate of Corrientes, by our countryman Mr Edward Fitzsimon, brother to the Rector of the National College of Corrientes. Climate has so much to do with success in agricultural and pastoral pursuits that Dr Gould's book is simply invaluable.

Mr Carlos Casares, we are glad to say, continues to improve daily and will soon be about again.

The renowned racehorse Narcissus, of the Las Rosas stud, (lately of Santa Teresa) died yesterday morning. He only ran four times, and won two Gran Premios, one at Palermo and the other at Lujan: he was 3 years and 4 months old.

The unpleasantness between the Municipality of Belgrano and the local Consejo de Educacion has ended in the resignation 'en masse' of the latter.

The *Libertad* announces that a young member of one of the most distinguished families in the country, who suddenly disappeared from society about a year ago and was given up as dead, walked in on his family on Wednesday evening as if he had just been out for a stroll, So he had, and a long one, having been to the United States, Central America, the West Coast, in fact all over the New World, and he has spent half his fortune in the trip.

Another High Life wedding took place yesterday at 5 o'clock in the morning—Mr Miguens and the charming Miss Diehl. We wish the newly wedded pair every felicity.

The Western Railway is going to run a branch from near the Once station to San Isidro and the Tigre. This is the new line to which we referred yesterday.

The chief business at the Boca yesterday was counting the cost of the previous day's fire. The sum total is ugly—over a million currency. Cheap enough though, for such a big blaze. Some day there will be a bonfire of the whole Boca. An order should be issued to stop the erection of wooden houses in that quarter.

The following extract from a London correspondence may interest our High Life readers:—"One of the funny features of the opening day at the cattle show was the introduction of a successful breeder to the Prince of Wales. The breeder—a magnificent specimen of the grinning rustic—was overjoyed at his triumph, and the unexpected hour of shaking hands with the Heir Apparent coming on the top was too much for the poor man, who positively gave way to a succession of short yelps and barks of hysterical delight when the Prince spoke to him. The Princess, who judiciously kept in the background, had as much as she could do to preserve a decent semblance of gravity. Certainly it was a most ludicrous scene. Your lady readers may be interested to know that the Princess was very plainly dressed in a black jacket trimmed with fur and beadwork on the pockets, a small black bonnet with a scarlet flower, and a perfectly plain black skirt. She wore no jewellery, and her only ornament was a bunch of violets worn at button-hole. I heard a lady declare that the jacket was the same as the Princess wore at last year's show, but how true that may be I cannot of course tell."

The sun was so scorching yesterday that it set fire to the contents of a vasura cart in Calle Peru, and the driver was burned slightly in trying to extinguish the flames. Some say the horses tried to run away, but this is absurd; no vasura horse could possibly run at all, much less run away.

Captain Manton has sold his Alta-Voz Telephone concession to the Consolidated Telephone Construction and Maintenance Company London. Price reserved, but said to be high.

Anything and everything in the wedding line is of interest to our fair readers, so we give them the following bit of London gossip about the approaching Royal Marriage. We agree with our distinguished friend (he's not a subscriber) John Brown:—"I hear that the engagement of the Duke of Albany has produced a little passing unpleasantness at the Palace, the Prince having violated the strict etiquette of our Court by engaging himself before he had formally asked for, and obtained, the sanction of the Queen. The marriage is understood to have been brought about by the Grand Duke of Hesse. Maps of Germany have been in some request at Windsor Castle, as nobody had the faintest idea as to the location of the Principality of Waldeck. 'It's a fine landing for her,' is said to have been John Brown's remark."

The steamer Theben brought dates to January 3rd from the West Coast; but there is little or nothing in the papers. There rarely is anything in the West Coast papers.

Another comet has been discovered by a Don of Harvard University, United States. This seat of learning has awfully keen sight. No fewer than seven comets have fallen to it this year.

We'll all be ruined with taxation if the conflict between Nation and Province is carried much further. In addition to the double stamp, there is now a double tax on beefsteaks and mutton chops, owing to the Provincial Government having put an 'abasto' tax on all cattle killed outside for the city market to be paid where the beast is killed. This is simply monstrous.

ON 'CHANGE.

	Jan. 19th
Patacons.....	25.15
Cedulas A.....	101½
National Bank Shares..	130
Italian Bank Shares	150
Old Gas Co. Shares	2,000$

The business in the gold market to-day reminds one of old times; over 330,000 pats sold between 25.10 and 25.15. The market stiffened to-day and prices rose quickly. It appears that a great many gold pagarés are falling due this month, and as gold must be had parties have to apply to the Bolsa for same, since there is no getting any out of the Bank. The Provincial Bank might throw some gold on the market, but nothing has been done by the Board. On the other hand it is stated that the proposed new branches of the Bank in the suburbs affects paper money. At all events many parties were anxious to hear about the proceedings of the Board in to-day's extraordinary meeting. Gold was sold to-day for end of March at 25.30 and 25.40; some amounts were sold for end of April at the latter rate. The demand for gold continues and the market is firm.

There is a lull in the Cedula market; the sales were few. Series A rose ⅛ since yesterday. It is rumored that the weakness of this series was occasioned by heavy holders selling out and securing National Bank Shares for the end of the month and cash. One party let go in this manner 200,000 pats of Series A in Series E nothing was done; the series does not present the usual firm aspect.

The business in National Bank Shares continues large for the end of month and end of February. There was little done for cash. Prices opened this morning weaker than last night and gave way gradually, falling from 132 to 131½ for end of the month; the market closed at this rate. The speculation for end of February continues strong; opening price showed a decline of ¼ on last night's sales; rates opened at 133 and closed at 132½. Active operations are expected between this and the end of the month.

Fifty Italian Bank Shares were sold to-day at 150. The meeting of the Bank shareholders has been fixed for the 23rd.

A few Primitive Gas Shares were sold at 2,000 m/c.

5,000 pats National Bonds of 1876 were sold at 86.

The sales at the ring were—

Mr Cardozo Rangel, ex vice Consul Brazileiro de Rosario, was welcomed on Change today, he reports business brisk up there and everything doing well.

Some parties insist that the National Bank shares of Chili have never been quoted on the London stock exchange; we for our part must say that we have never seen any such stock quoted; we note that as yet the Buenos Aires Loan and Trust Company shares have not received quotation on the London stock exchange.

A very heavy speculation in Deuda Amortizable in Montevideo is reported. A B. Aires syndicate of 4 or 5 parties has bought up about one million pats of this stock, and the issue of new stock by the Montevidean Govt. is now stopped. It is said on 'Change that soon an agency will be opened here for the payment of the coupons in this market, which will at once enable the Buenos Aires speculators in this stock to get it quoted on the Bolsa here, which is the great desideratum. All the Montevidean stocks are at present so low that they are considered the very best buying, and the least improvement in the political situation of the country would lead to an immediate run up in prices.

The sudden drop in Rio Exchange seems inexplicable, no one in this market well understands it. Very large amounts have been drawn here on Rio, and this may possibly account for equally large amounts taken up there; the most recent quotation gives bills on London at 20½ against 21½ last week.

The great land auction at Bullrich's came off to-day; over 100 persons present; we noticed Messrs. Mathven, Bridger, Altgelt, Arriola, Dodd, Duggan, Graham, Casey, Arocena, Freund, L. Billinghurst, Beou, Guerrico, J. Hughes, Mendez, G. Soler, Claraz, Corrales, Gomez, Gonzales, Dr. Boneo, Dr. Ocantos, M. Plaza, Montero, Beckhaus, Sillitos, Arnold Garcia, and the rest apparently neighbours of Bahia Blanca. So much has been said and sung about Bahia Blanca, that the auction attracted much attention. The estancia Maman ia es is beyond doubt one of the finest properties in the country; it was sold in 3 lots; the first being only a suerte of estancia divided by the river from the rest attracted little attention and after 5 bids was knocked down for 170,000 per league to Mr. Edward Marques. The 2nd lot 4½ square leagues was strongly competed for, beginning at $155,000 m/c. and rising in bids of 5000 to $300,000 m/c. per league at which price it was knocked down to Dr. Ocantos. Lot 3, land adjoining 3 square leagues did not sell so well and after much delay was knocked down to the same buyer Dr. Ocantos for $220,000 m/c. per league The Doctor has thus secured one of the finest estancias in this province 7½ square leagues within a few leagues of Bahia Blanca, and we fully agree with Mr. Bullrich, the auctioneer, that on the opening of the railway these splendid lands will be indeed cheap at $600,000 m/c, per league. The auction was held in the patio which is roofed, over-hung with curtains, oil paintings of scenes in Naples, and English engravings, Bullrich was very eloquent on the occasion and after the first bid served round cognac and champagne which put more life into the affair. We may add that a year ago these Manantiales lands would not fetch over $100,000 m/c. per league which shows that spite of the mud flats and cangrejales Bahia Blanca is going ahead. Many who attended the sale left surprised, first those Bahia Blanca men who believed $500,000 m/c would be the figure; others who dreamd they were going to buy up all Bahia Blanca at $150,000 per league. Both erred, as Mr Bullrich can testify.

Mr Green, jr., showed on Change some splendid samples of new starch made in this country.

Telegrams received to-day from Antwerp gave as follows:—

Market position uncertain.
Rather limits all round 3 o/o.

At 4 o'clock gold was sold for—
February at 25.25
April at 25.30
May at 25.35
June at 25.50

Seventeen thousand National Bank Shares deposited up to to-day; one party brought 4,000 shares of his own and 1,000 of a friend.

Italian Bank Shares were old to-day at 150; this is the highest price these shares have as yet touched, but they are marked for much higher figures. We compliment Chevalier Polinini on the splendid price of his shares.

There was decided alarm in the gold market this morning, which the brokers tried to make the most of. All sorts of rumours were afloat about large exchange transactions, and the Bank opening in Flores; under the pressure of the ring squeeze, many bought gold without having the paper to pay for it; but at 4 o'clock some 250,000 pats were thrown on the market and prices for cash at once fell to 25 10, and for end of month to 25 15; and it seems that to-morrow much of the gold bought to-day will be thrown on the market, putting prices back to 25.05, or even par. No one believes at present in any permanent rise in gold.

The total amount of gold taken to the Bank for exchange for paper up to-day is 2,300,000 patacons.

There are $200,000 in gold on the way out from England for the Provincial Bank.

The Sully has arrived in Montevideo from Havre, with 300 tons of cargo for this port and the remainder for Rosario. She has a lot of sugar machinery on board for Tucuman and will be up here to-morrow, leaving same day for Rosario.

Wool is now going into deposits and prices are weaker. The arrivals to-day in the Once amounted to 2,000 ar. Subscribers from the camp state that the 'acopiadores' out there are paying higher prices than the 'artistas' in town.

Lino is in demand, and several contracts cannot be fulfilled, giving rise to many difficulties.

The news of the maize crop continues very good and it is expected that a large export of the cereal will take place if freights are moderate.

Some exchange was done to-day at 50½ gold and 50d gold. Some fair amounts on Antwerp at 5.31.

Government Treasury Bills were taken to-day at 9 o/o.

Discounts in paper difficult for the moment; in gold easy at 7 o/o.

10,000 hides from Concordia were sold to-day at 48½ rls; weight 66 lbs.

4,000 hides of Rocca sold to-day at 48; weight 65 lbs.

Great news for the South. The Barracas Consumidores de Gas Company will soon light up the whole south end of this city; all the kerosene lamps will disappear within two months, when every house will be supplied with gas. There is also hope that the pavement or rather petrified 'kidneys' will be soon removed.

Captain Manton has sold his Gower Bell Alta Voz telephone to Mr E F Powers, agent of the Consolidated Telephone Construction and Maintenance Company of London.

At afternoons speculation in gold continued brisk, and the National Bank Shares main locked on with suspicion. The Shares stood their ground and the market closed after a few operations at 131½ for end of the month. Some Cedulas A were sold at 101¼.

All the camp Juezes, some 80 in number, have answered the circular of the Exhibition Committee. As yet no answers have been received from the Ensenada and Southern Railways as to any reduction in the freights of exhibits.

Mr E L Green reports to-day two charters in tallow and hides and the clearances of the Peri, Sarah Sammid and Thornhill for Brazil.

Messrs Baltar & Quesada sold 27 potros to-day; they averaged $90 m/c each. The animals were all sold for a bargain. The auction mart was tolerably attended, and beautifully adorned with ladies' silk dresses. It is really a sign of the times to see this magnificent feminine apparel grace the stables of thoroughbreds. The dress auction comes off on the 26th inst.

The Directors of the Provincial Bank met to-day and after some preliminary discussion named the consulting directors of the branches of the Bank. Nothing as yet is settled about the double stamp nuisance.

A French engineer, who has seen all the Exhibitions of the world, has been engaged to arrange the exhibits of the B. Aires department in the Exhibition.

The Sales at afternoons were—

Gold—
For cash 30,000 at 25.15-12½-10
For Jan. 31st 50,000 25.20
For Feb. 28th 20,000 25,25

National Bank Shares—
For Jan. 31st 400 shares 131½

Cedulas A—
For cash 5,000 at 101½

The report of the Sociedad Anonima Fomento de Barracas al Norte shews the favorable condition of that Company and its increasing business. At the general meeting on the 16th inst. it was decided to pay a dividend of 4½ o/o or $8.50 per share. Mr E Humphry was appointed auditor of all accounts of the company. The working of the Company this year has been most successful, owing to good management and economy; the returns have been as follows during the last few years; the figures only refer to last six months of each year:—

	Income.	Expenses.	Nett proceeds.
1874	$293,666	$152,888	$140,778

The rams recently imported by Mr Gettung were sold yesterday at Messrs Baltar & Quesada's auction mart; they averaged $4,080 m/c.

Exchange in Rio is falling; a telegram under yesterday's date, reports same at 20⅝d.

We call the attention of those of our readers whom it may interest to an advertisement in another column of Messrs Mohr Bell & Co.; they offer for sale an oil-mill plant; the machinery is of the best for extracting oil out of linseed, mani, or any other oil producing seed.

It appears that Messrs Corti & Riva's house at the Boca was insured for 20,000 pats The damages done to same are not so great as reported.

The following clearances are reported:—
Spanish barque San Rafael for Barcelona with 1,559 bags of maize and 4 bags horse hair.
American barque Henry Warner for Boston with—
5,804 dry ox hides
1,731 dry beerro hides
2,408 carpincho skins
440 deer skins
84 bales horse hair
166 bales wool

The valuators of real estate in the city have suspended their work and will now proceed to draw up the classifications of the patentes.

Advices from San Luis state that the drought in that province is occasioning serious losses to the estancieros. The camps are in very bad condition and the cattle dying.

The Oficina de Tierras y Colonias' notifies all those who bought lands on the Cordoba frontier in that department that payments must be made for same the day after to-morrow. Many of these 'boletos' have changed hands, giving good profits.

The returns of the Campana Railway during the month of October of 1881 amounted to $ 55,000 m/c; this railway is doing a good business.

It is reported that studies are being made to find a good site in the Tigre for the construction of a wharf. The wharf is intended for torpedo experiments; no very agreeable prospect for the families in the neighbouring quintas.

The Havre Bolsa importers have fixed the following dates for the public sales of wool during the current year:—
10th January
14th March
9th May
18th July
19th September
28th November

The National Government intends extending the telegraph line from Patagones to Viedma, where it is very much wanted.

The Cordoba Municipality is trying to launch a loan amongst the bankers of the province in order to build a new market. The Cordoba Corporation seems to enjoy more credit than the Buenos Aires one.

The Mozart has brought to the Montevidean Commercial Bank £50,000 stg.

The Pampa, from Havre, has brought nine boxes of gold in bar for the National Mint.

6,794 pats greenbacks were destroyed in Montevideo on the 17th inst.

The La France, of the Societe Generale of Marseilles steamers, left here on the 19th of November last for Europe and arrived back on the 16th of January at 6 a.m. She only took 55½ days in that double trip, after loading and unloading in B. Aires, Montevideo, Rio, Barcelona, Marseilles, Genoa, and Naples.

520 packages of materials for the Charilos bridge in Santa Fe have arrived in the Chargeurs Reunis steamer Pampa.

The exchange business done in Montevideo for Britannia is important. Messrs Leibig & Co did some business at 52⅜; exchange in Buenos Aires is quoted at ⅜ to ½ discount. Bankers will only draw at 52½; commercial drawers on France 5.51 to 5.52.

1,200 bales of wool have been engaged in Montevideo at 30 and 10 o/o for the Scindia; she is now in port loading for Antwerp direct.

Messrs Oostendorp & Co., under date Dec. 17th, report the following:—

Hides—
Imports, 2,100 dry R. Plate
11,500 salted do
Stock, 84,300 hides, viz:—
7,700 dry R Plate
63,500 salted do
11,600 salted Rio Grande
200 miscellaneous
1,300 horse hides.

A moderate demand has been observed during last fortnight at prices showing no noteworthy change on quotations of beginning of month for good lots, whereas secondary shipments are difficult to place even at a reduction of f.1 to 2.

Dry Horse Hides—
Attract little attention and the nominal quotations are still 1.85½ for fair to good lots weighing 6½ kilos, about f.6-6½ for desechos, and f.4 4½ for foals of 3½ kilos.

Sales sum up to—
400 dry River Plate
22,300 salted do
1,700 salted Rio Grande
3,100 miscellaneous
Floating cargoes—

No transactions have been mentioned here nor in England.

In Liverpool business has been very limited; 1,000 heavy Uruguay ox sold at 7s 8d, and about 3,300 heavy salted R. Plate horse at 11s 6d to 12s 6d.

Leather—
A quiet tone is reported in England as well as in Germany.

Tallow—
No business took place in this article for want of retailable stock.

In Liverpool only retail sales have been effected at 43s 3d to 43s 6d for beef.

Wool—
Imports, 3,100 bales R. Plate.
Sales—
700 bales R. Plate
Stock, 2,600 bales B. Aires
500 bales Montevideo
1,000 bales miscellaneous.

A quiet tone prevailed during early part of fortnight, but several lots of good new clip B. Aires wools having lately been placed on the market, this has caused the demand to revive somewhat, and sales took place at prices about on a par with last auctions' rates.

The quality of the new article appears on the whole to be better than the first shipments had led to believe, and a favourable yield at scouring is generally anticipated.

Quotations for B. Aires invoices averaging a 1 , viz:—
F..90-2.00 for superior wools, 35-36 o/o
F.1.65-1.75 for good to fair, 32-34 o/o
F.1.50-1.55 for good average, 30 o/o
F.1.35-1.45 for good average lambs', 30 o/o
Fair Montevideo shipments averaging a 2 , 40 o/o yield, are worth about f.1.85 to f.1.95
Scoured wools stand in at f.5.-5.15 for fair, f.5.20 to f.5.30 for good, and f.5.-5 to 50c. for superior 1 [washing and all expenses excluded].

Sheepskins—
Stock, 57 bales.
No sales.
Market steady.

Buenos Aires invoices, ½ to full wool, averaging a 1 are worth about fr.1.65-70 for very fine quality, and fr. 1.45-55 for good average

At the Liverpool auction held on 14th inst. only 157 bales were offered and 134 bales were disposed of at an average advance of ¼d on October rates.

The following figures refer to the foreign trade of Uruguay from the year 1876 to 1880:—

We think it well to lay before the public the following report just received from Mr J. Frederick Normand on the above mentioned 10 leagues of camp Section G. Nos. 1, 4 and 5, which we shall offer in auction on the 24. inst.

The report reads:—

Lots 4 & 5. On the afternoon of Dec. 29th I started for your camp. The land is very deep, the soil black and full of vegetable matter with a growth of pasture I have never seen anywhere else, a perfect mat of "alfalerillo" and "trebol", with the pasto fuerte pushing up through it. Camping that night by a pool of water, I started next morning and beginning from S. E. rode over the camp; it is soft and heavy pasture as I have already described, it gets higher near the west, but the soil black and good, sound grasses. That afternoon I rode until I got to the corner of lot 2, and then to the top of the cañada on your camp lot 1, where finding water I camped. The cañada is about 2 or 3 squares wide, the camp on the north is very good with lots of grass, towards the south it is more knobby but still good camp.

Both your camps would take fully 2000 head of cattle per league if not more.

THE JUDICIAL CRISIS

January 16th, 1882

To the Editor of the *Standard*

Dear Sir

By the leading articles of your issues of Thursday and Saturday there would seem to reign among the public a certain anxiety to brush away some of the confusion adhering to their minds, with regard to the new organization of our National and Provincial Tribunals.

It struck us that if you could spare the necessary space, perchance, some of your subscribers might, for once, not object to being fixed with a plain statement, fixing the main points and setting fourth in plain language the exact position of our somewhat complicated Administration of Justice.

We suggest that, that end would be best attained by examining together the judicial order of things both before and after the passing of what we shall call the Argentine Judicature Acts.

Before now, changes have taken place in the Administrations of Justice of other countries, not to forget Old England who in 1873 swept away a labyrinth of courts by the creation of the High Court and Divisions. It is true that such changes did not amount to making hash of Law and Equity, but they affected practice and pleading considerably and even one or two points of jurispudence were rather roughly handled—and while we are on the delicate subject of British law, perhaps the highest compliment that could be paid it would be to acknowledge that, even if in theory other systems are far better, in practice few come up to it in one point at least.....viz: the foundation on which the whole of the British judicial edifice rests, which is perhaps more than can be said of most countries.

But to return to our subject: neither National nor Provincial changes will, we venture to think, considerably affect our jurisprudence, though it is clear that our practice and pleading is thereby overhauled, in spite of the fact of the National and Provincial Governments having for the present the same Code of Procedure (that of the Province of Buenos Aires.)

Finally let us indulge in the hope that, whatever inconveniences may attend these changes at the outset and whatever confusion or conflicts of competence they may for a moment lead to: they may eventually render both practice and pleading subservient to the purpose of Justice, rather than obstructive to its ends. And in the meanwhile, Englishmen will consider it only fair to give those who framed and passed these Acts at least credit for their good intentions!

The organization of our Provincial Courts of Law up to the end of 1881 was as follows:—

The whole of the Province of Bs. Aires was divided into four judicial Departments; to wit:—

1st. The Capital Department, whose courts resided in this city; 2nd the Northern Department, whose courts resided at San Nicolas; 3rd the Central Department, whose courts resided at Mercedes, and 4th the Southern Department, whose courts resided at Dolores.

Each of these four Departments included the different country districts or Partidos which had been assigned to it by Law. In each of these country partidos as also in every parish of the city there was a Justice of the Peace who in the country partidos heard correctional cases too, and in every one of the judicial centres, the Northern, Central and Southern there existed:—

1st.—In each Partido and Parish a Justice of the Peace.

2nd.—In this city four Judges for civil, three for criminal, two for commercial and one for correctional matters.

3rd.—Two Chambers of Appeal two for civil and another for commercial, criminal and correctional matters.

4th.—The Supreme Court of Justice whose jurisdiction extended over the whole Proviuce of Buenos Aires and which superintended all the Law-Courts of the four Departments of the Province.

Besides the functionaries and courts enumerated, there were other officials, such as two Defenders General of Minors and their respective assessors (or legal advisers who are advocates of the bar.) Also a Fiscal for the Courts of Appeal and a Solicitor-General, attached to the Supreme Court.

But the organization of the Law-Courts of the Capital Department has undergone a complete change and has been reduced to the form stated below: For the precincts of the City of Buenos Aires having become the Capital of the Nation, the whole city has been regregated from the Department of the Capital, so that the latter is now reduced to the Rump Partidos, which were formerly only a part of it.

Once this division had been accomplished it became necessary to provide this Rump-Capital Department with its actual organization which is as follows—

1st—Each Partido has as before a Justice of the Peace and residing in this city (but only until the new Capital of the Province of Buenos Aires be decided upon and transferred to some other locality); the following appointments have been made.

2nd—A Judge of the 1st Instance for Civil and Commercial and another Judge for criminal matters.

3rd—A Court of Appeal for civil, commercial and criminal matters.

4th—The Supreme Court of Justice which controls the Administration of Justice of all the law courts of the Province.

By comparing this table with the former one relating to the Capital Department the importance of the changes will be seen at a glance.

Besides these appointments there are others such as a Fiscal Agent and an Assessor for the defence of minors, besides a Defender General of minors for all the four Departments.

As a matter of course; these Judges and Courts of appeal take no cognizance of any matters which belong to the Capital of the Nation, but only of such matters as pertain to the Partidos of the Rump-Capital Department of the Province of Buenos Aires.

This state of things will naturally bring us to enquire into the organization of the Administration of Justice in the city of Buenos Aires—as the Capital of the Republic—which has been constituted so:—

1st.—The capital has for purposes of better administration, been divided into 20 sections each of which belongs to the jurisdiction of a Justice of the Peace and in an inferior degree, of course, petty claims are now heard by 4 Alcaldes in each section.

2nd.—Matters which exceed the attributions of the Justices of the Peace must be taken before one of the four Judges of Civil, two Judges for Commercial, two Judges for Criminal and yet another Judge for Coerrctional matters.

3rd.—The appeals are now heard before the following high courts whose decision is final *i e.* The court of appeal for civil and that of commercial, criminal and coerrctional cases.

As forming part of this judicial mechanism and representing the public interests, we may mention the following appointments: two Fiscal Agents for the ordinary courts of 1st instance and petty courts, and a Fiscal to take charge of cases before the courts of appeal of 2nd. and last instance.

Minors and incapacitated parties are protected by two Defenders of Minors each of whom is aided by an assessor who is an advocate of the bar.

The Judges just quoted only hear cases which belong to the precincts of the city of Buenos Aires, considered as the Capital of the Nation, and which before had to be filed before the Judges of the province who still reside in this city (temporally.)

Thus we have seen how the Provincial Law Courts (including that of the Rump-Capital-Department) have been constituted. We have also analysed the composition of the Law Courts of the city of Buenos Aires as the Capital of the Nation. And we have now only to bear in mind that there is yet another kind of jurisdiction with regard to matter exclusively pertaining to National Privilege and Prerogative. The Federal Courts. A Federal Judge has been established in this city whose duty it is to hear and take cognizance of all those cases which formerly came under the cognizance of the National Law Courts.

In your next issue we shall do our best to elucidate the manner of distributing the pending proceedings and briefs, as also to point out the competence of each Judge in matters whether Civil, Commercial, Criminal or Correctional. We shall also call your readers' attention to the principal innovations which have been introduced by the said organic law, and its working as regards the Registrars and Actuaries (Escribanos Secretarios) of the Courts and the Public (civil and commercial) Notaries (Escribano de Registro) who have charge of the protocols in which the original deeds are consigned; also the new Public Registry office for all entries relative to Property and Mortgage which by National law will be under the direction of a Lawyer and Escribano respectively. For it seems to us that the public is quite as interested in the Escribania changes, if not even more so than in those of the Courts of law.

Meanwhile, I remain, dear Sir,
yours truly and obliged
B. Bertie Marriott
Solicitor
San Martin 33 (altos).

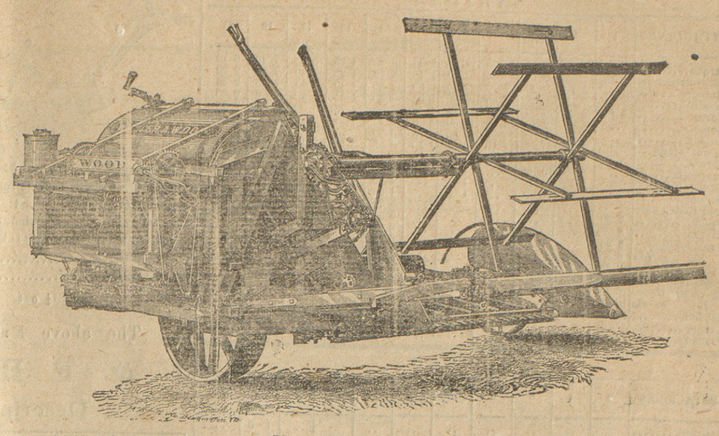
WALTER A WOOD'S HARVESTING MACHINES



A Competitive Field trial of Automatic Binders was held at Melbourne, in the Province of Victoria, Australia, on the 29th day of November, 1880, under the auspices of the Melbourne International Exhibition and in connection therewith, but under the direction and charge of the National Agricultural Society of Victoria.

The Machines entered for competition were:—

Walter A. Wood's Twine Binder,
Osborne's Wire Binder, Osborne's Twine Binder, McCormack's Wire Binder, McCormack's Twine Binder, Deering's Twine Binder.

(The judges in making their awards did not take into account the material used in binding, whether Wire or Twine, but were governed by the merits of the machine and quality of work done.)

Result of the Trial:

Walter A. Wood's Twine Binder

Was awarded the FIRST PRIZE.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freemen, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation the justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

ROUGHING IT IN THE COLONIES.—There can be no doubt that a man has to put up with many little inconveniences when he settles in a new country; some of them arising from 'the necessity of things,' whilst others are the result of his own want of knowledge or foresight. However, if he can secure pure water and good bread he will manage to get along tolerably well. Thanks to the advance of chemical science, this last desideratum is not so difficult to obtain as in times past, for with a good supply of BORWICK'S BAKING POWDER, even Robinson Crusoe himself might have produced the whitest and most palatable of bread, to say nothing of cakes and pastry *ad libitum*, and would doubtless have ended by opening a pastry-cook's shop upon his desert island. NOTA BENE.—Don't forget to ask your storekeeper to put up a good supply of this valuable article with your groceries. In packets, 1d, and 2d, ; boxes, 6d. and 1s. each. (a)

J. & E. ATKINSON'S PERFUMERY,

celebrated for nearly a century past, is of the very best English manufacture. For its purity and great excellence it has obtained Nine Prize Medals, including London, Vienna, Philadelphia,

ONLY GOLD MEDAL, PARIS, 1878.
TWO SILVER MEDALS AND "FIRST ORDER OF MERIT," MELBOURNE, 1881.

ATKINSON'S CHOICE PERFUMES FOR THE HANDKERCHIEF.

WHITE ROSE, FRANGIPANNI, YLANGYLANG, STEPHANOTIS, OPOPANAX, JOCKEY CLUB, ESS. BOUQUET, TREVOL, MAGNOLIA, JASMIN, WOOD VIOLET, GOLD MEDAL BOUQUET, and all other odours, of the finest quality only.

ATKINSONS'
GOLD MEDAL EAU DE COLOGNE

is strongly recommended, being more lasting and fragrant than the German kinds.

ATKINSONS'
OLD BROWN WINDSOR SOAP,

celebrated for so many years, continues to be made as heretofore. It is strongly Perfumed, and will be found very durable in use.

ATKINSON'S WHITE ROSE TOILET VINEGAR, a new and indispensable Toilet accompaniment, and most refreshing Perfume for the Handkerchief.

ATKINSON'S WHITE ROSE TOOTH PASTE, and other Specialities and general articles of Perfumery may be obtained of all dealers throughout the world, and of the manufacturers,

KILLS BUGS,
FLEAS,
MOTHS,
BEETLES,

THIS POWDER is quite HARMLESS to ANIMAL LIFE, but is unrivalled in destroying FLEAS, BUGS, COCKROACAES, BEETLES, MOTHS IN FURS, and every other species of insect. Sportsmen will find this invaluable for destroying fleas in their dogs, as also ladies for their pet dogs.

THIS ARTICLE has found so GREAT a SALE that it has tempted others to vend a so-called article in imitation. The PUBLIC are CAUTIONED that the tins of the genuine powder bear the autograph of THOMAS KEATING. Sold in Tins only.

STEEL WIRE

Schneider & Co.

Special Steel Wire of the Creusot Works.

This Wire, the very best ever imported into the River Plate, has been tried against all others in this market and gave best results. Its price combined with its quality allow Steel Wire fences to be made cheaper than iron wire fences, both having equal resisting power.
